Dear Josh:

As a follow up on our conversation at lunch yesterday, I would suggest that you contact Marvin Johnson (Emeritus Prof. Biochemistry, 197 Biochemistry Bldg.; home address, 733 Miami Pass, Madison). I talked with Marv this morning and he told me that he and Ed were close friends as they were graduate students together in Peterson's laboratory, Ed being one year behind him. Marv is in good shape mentally and should be able to help you gain information about that period of Ed's life. I indicated to Marv that you might contact him, and he indicated that he would be glad to help.

I enjoyed our visit and look forward to seeing you again soon.

Sincerely,

A handwritten signature in cursive script, appearing to read "Philip P. Cohen".

Philip P. Cohen
Professor of Physiological Chemistry
